

Region 4

Canadarago Lake

Elevation: 1,266 feet

Area: 1,944 Acres

Shoreline Length: 10 miles

Length: 3.58 miles

Max Depth: 44 feet

Mean Depth: 33 feet

Aquatic Vegetation:

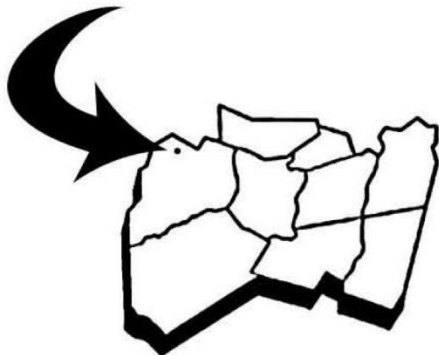

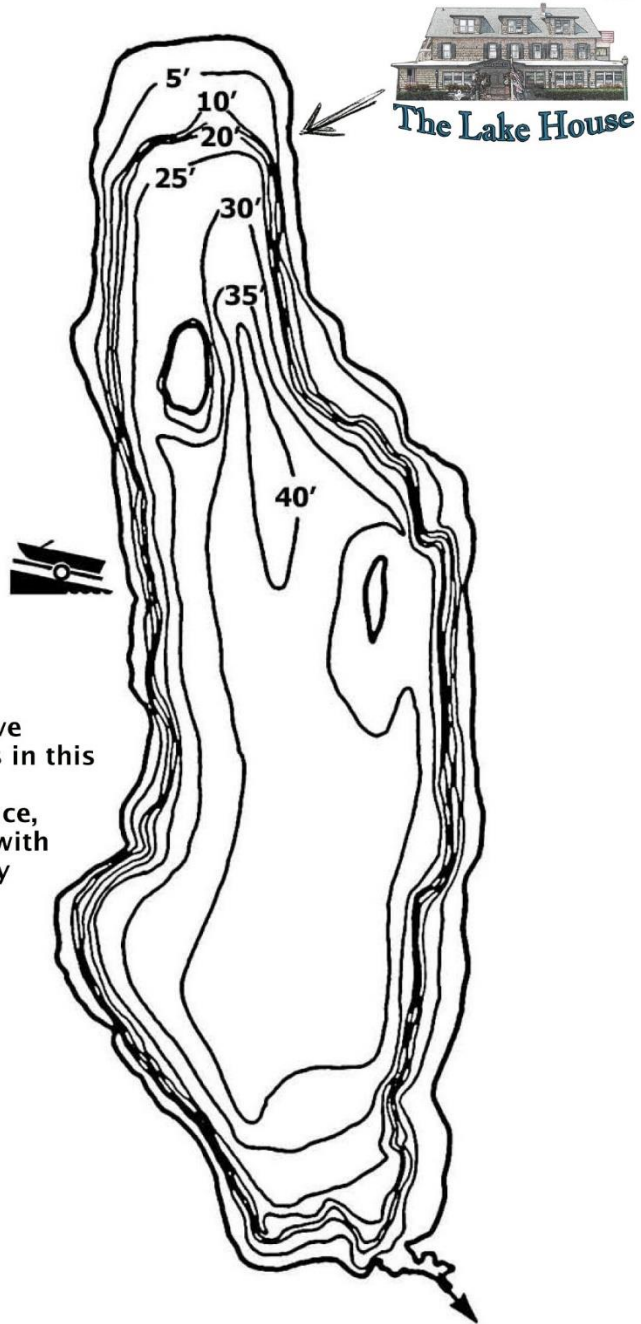

Moderate rooted aquatic vegetation to 15 feet.

Fishing:

The lake is popular during all seasons for its panfish and walleye. During the summer there are multiple bass tournaments on the lake targeting the impressive sized largemouth and smallmouth bass. Most species in this lake tend to grow to average to above average sizes. Due to a recent increase in alewife (baitfish) abundance, the lakes walleye population is being supplemented with approximately 40,000 walleyes 4-5" in length annually through 2016 which at that time will be re-evaluated and most likely stocked once every 2-3 years.

Icefishing:

Permitted.
